Executive Travel Planner Project Axus App Demo

Designed a seamless and mobile-accessible 10-day itinerary for Mr. John Peters, a high-level executive, using the Axus Travel App. The project included essential elements such as bookings, Itenerary, maps, transfers, Flights, Hotels, Local Activities, Automated reminders, and post-trip feedback, ensuring an efficient travel experience in October peak of the Great Wildebeest Migration in the Maasai Mara, Kenya offering a once-in-a-lifetime wildlife spectacle.

Tools Used & My Approach

- Axus Travel App(Itinerary Builder)
- Google Docs (Client
- Intake) Gmail (VendorCommunication)
- Real-time updates, automation, mobile-first experience

Key Features Delivered

- Branded daily itinerary with maps & tickets
- Smart Segments for auto-formatting times
- Offline access enabled
- Daily app notifications
- Click-to-call support

Smooth Vendor & Traveler Collaboration

- Shared itinerarylinks with vendors via Axus
- Used in-app comments for real-time updates
- Travelers accessed everything via the mobile app
- Automatic reminders ensured nothing was missed

Results & Client Feedback

- 100% on-time travel experience
- No missed pickups or miscommunication
- Client appreciated digital itinerary & app reminders
- Post-trip feedback form helped refine future trips
